PRODUCT SPECIFICATION

Halogen LED Exit sign is ideal for various applications for commercial and institutional facilities where energy saving operation and long service life is required. Specifically for drywall application.

FEATURES

- High grade MS sheet metal powder coated, Flame resistant, high impact resistant housing
- Multiple Mount LED Exit signs have compact
- Hang or back mounting convenience - Easy installation
- Removable screen chevron design meets all local and state codes. - Acrylic clear panels
- Single face, Red or Green Letters - Automatic charging circuit and automatic reset.

OPERATION

The exit sign is continuously illuminated by normal AC power. Whenever normal AC power fails, the internal solid state transfer switch automatically connects internal battery to the LED lamps inside the exit sign to keep it continuously lit for more than 120 minutes. When AC power is restored, the battery is recharged by the onboard charger and is accomplished within 12 hours.

APPLICATIONS

Best suitable for Hospitals, Shopping malls, Theatres, Offices, Hotels, Restaurants, Industrial Complex, Long Corridors, Airports & Terminals, General Public places etc.

PACKING

Box qty: 1 (including 1 Sign plate with profile, power cable) Specification subject to change without notice.
