Projects

- **MCA**

Semester VI:

Name: QuestCom e-commerce

Front-End: HTML, JavaScript, PHP, jQuery, Ajax

Back-End: MySQL

Role: Developer, Designer

Description: It provides all the e-commerce website facility related to furniture shopping including browsing, selecting, adding to wish list, adding to cart, purchase, registration etc. In this project we have created own MVC Framework in PHP.

Semester V:

Name: BASERA-Find your home anywhere

Front-End: HTML, JavaScript, PHP, jQuery, Ajax

Back-End: MySQL

Role: Developer, Designer

Description: It is an online marketplace that connects people who want to rent out their homes with people who are looking for accommodations in that locale. It acts as a broker, receiving commissions from each booking. It connects hosts and travellers and facilitates the process of renting without owning any rooms itself.
