Our Vision

To become a Signage Solution Provider in dynamic equilibrium with its social ecological and economic environment striving continuously for excellence in engineering and technological service to the nation.

Our Mission

To create and sustain a community in which employees acquire knowledge and learn to apply it professionally.

Our Core Values

Develop human resources to serve the nation. Recognize engineering services as a unifying activity. Nurture integrity, creativity and academic freedom

Our Team

We consider our team as the backbone of our organization that is why we have employed highly experienced professionals. These professionals have helped us create a successful track record in the industry. In our team, we have skilled, sincere and experienced workers who work in close-coordination with each other to accomplish the set targets in an efficient manner. The experts of our team fabricate premium grade products by using the latest technological advancements and high grade raw material. These professionals always give their best in order to meet the requirements of our clients within assured time frame.

Manufacturing Process and Facilities

- UV Flatbed Printing of Size 8 ft x 4 ft
- CNC router with Camera detection
- ECO Solvent Printing of size 5 FT width
- Laser Cutting Machine
- Hot and Cold Lamination

Quality Standards

We are a quality oriented organization and our only motto is to provide our valuable clients high quality product as per the set industry norms. These products are fabricated from high grade raw material in complete compliance with defined quality standards. Raw material used for the fabrication process is procured from the trusted vendors of the industry. In order to provide superior quality product range, we implement Total Quality Management principle in the manufacturing process. Furthermore, our expert quality controllers examine the entire product range on different parameters to eradicate all the flaws.
